8. What is the definition of equality?

- a) The fair and equal treatment of all individuals
- b) The dominance of one group over another
- c) The preferential treatment of certain groups
- d) The segregation of society into different classes

Expected Answer: The explanation should clearly describe the characteristics of a compound sentence and its components. The student should mention the presence of two or more simple sentences combined to form a single unit with a shared meaning and grammatical structure.

5. Explain the different types of compound sentences based on the conjunctions used, providing examples of each type.

Expected Answer: The student should correctly explain the different types of compound sentences based on the conjunctions used (coordinating, adversative, and disjunctive). This exhibits comprehension of sentence classifications and connectives.

6. What is the function of coordinating conjunctions in compound sentences? Explain with examples.

Expected Answer: The student needs to correctly identify and explain the role of coordinating conjunctions in linking the clauses of a compound sentence and give examples of each type of conjunction and its effect. This shows understanding of sentence construction and the functions of connectives.

7. What does the term "equality" mean in the context of social justice? Discuss from different viewpoints.

Expected Answer: The response should demonstrate an understanding of the concept of equality and its relevance to social justice, citing various perspectives on this. The student is expected to present well-articulated points on how equality manifests in society and its importance.

8. Explain the concept of discrimination and its negative social impacts. Why is personal responsibility essential in addressing it?

Expected Answer: The student must explain the concept of discrimination and its negative impacts on society, emphasizing the importance of individual responsibility in promoting equality and justice. This demonstrates awareness of social issues and ethical considerations.
