# Answer Key

## Long Answer Questions - Expected Responses

1. Describe what a house attached to other houses on one or both sides is called and explain its characteristics.

Expected Answer: A joint house is a house that is attached to other houses on one or both sides.

2. Describe the features and characteristics of a palace, including its size, design, and historical associations.

Expected Answer: Palaces are large, grand houses often associated with royalty or wealth, characterized by opulent design and extensive grounds.

3. Explain the difference between an 'apartment' and 'a floor' in the context of housing. Where are these typically located?

Expected Answer: An apartment is an individual housing unit within a larger building, typically in an urban setting. A floor refers to one level of an apartment building.

4. Describe the location and typical uses of an attic in a house. What makes it unique from other types of houses or rooms?

Expected Answer: An attic is a space or room at the top of a house, often under the roof, typically used for storage.

5. Describe a farmhouse. What are its defining characteristics? How does its design reflect its purpose and location?

Expected Answer: A farmhouse is a house situated on a farm, often reflecting a rustic style, and is closely tied to agricultural life.

6. Describe what constitutes a 'villa' in terms of location, style, and amenities. How

does it differ from other types of homes?

Expected Answer: A villa is a luxurious house, usually located in a scenic setting, often associated with leisure and vacation.

7. Describe a chalet, focusing on its architectural features and typical location. What are some of its key design elements?

Expected Answer: A chalet is a type of house, often with a steep-pitched roof, typically found in mountainous regions. It often has a cozy and rustic feel.

8. Describe a hut. What materials might it be constructed from? What are its typical characteristics and location?

Expected Answer: A hut is a small, simple dwelling, often made from basic materials, and typically associated with rural or undeveloped areas.
